TARGET AUDIENCE: MAJCOM/Base CE, CEC, CEP

SRM Contracting Now at AFCESA

On October 1, 2004, HQ AFCESA assumed responsibility for managing and executing the contracting support program for AF Civil Engineering sustainment, restoration, and modernization (SRM) projects. Although SRM was previously managed by AFCEE, it was deemed a natural fit to the roles and mission of AFCESA, which is responsible for setting Air Force infrastructure criteria and standards. Under the realignment, AFCESA's subject matter experts (SMEs) will be available to provide assistance to ensure that SRM contract projects are technically sound. Co-location of the SRM responsibility with the agency's SMEs, financial management and warranted contracting personnel will provide focused customer support.

A new directorate, headed by Mr. Myron Anderson, GS-15, P.E., was created within the agency to manage the SRM program. The primary customers of the new Installation Support Directorate (HQ AFCESA/CEI) are base civil engineers and MAJCOM CEs. To ensure a smooth transition of this important program, CEI will initially use existing AFCESA and AFCEE contracts with a focus on CONUS SRM projects. AFCEE will continue to handle overseas projects until October 2005, when AFCESA will assume full program responsibility. AFCEE retains responsibility for environmental projects. Both AFCESA and AFCEE will now charge a 2.5% direct cost recovery fee for project management.

HQ AFCESA/CEI will be organized into 4 divisions according to work type. Each division chief has also been assigned alternate POC duties for base and MAJCOM callers who aren't sure which division to contact. Call the professionals at the following numbers for contracting support for your SRM projects:

- POL/Fuels Division (CEIF) – handles all POL/fuels system SRM projects.
Division Chief: Mr. Pat Mumme, P.E., DSN 523-6361, pat.mumme@tyndall.af.mil
Alternate POC for ACC, AFRC, PACAF
- Vertical Division (CEIV) – handles facility-related renovation projects.
Division Chief: Mr. Norm Fowler, P.E., DSN 523-6345, norman.fowler@tyndall.af.mil
Alternate POC for AETC, AFSPC, ANG
- Pavements Division (CEIP) – supports the design and construction of pavement projects.
Division Chief: Mr. Jim Greene, P.E., DSN 523-6334, james.greene@tyndall.af.mil
Alternate POC for AFMC, USAFA, USAFE
- Utilities Division (CEIU) – handles all infrastructure utility projects.
Division Chief: Mr. Mike Giniger, P.E., DSN 523-6520, michael.giniger@tyndall.af.mil
Alternate POC for AFSOC, AMC, Bolling AFB

AFCESA has an MOA with AETC/LGC and their contracting squadron to provide complete contracting support today. AFCESA's own organic contracts are expected to be in place in FY2006.
